

SAINT GERMAIN

Karma Releasing

Move beyond drama. Create your own path.
Make room for good energy.

SAINT GERMAIN **Karma Releasing**

*Move beyond drama. Create your own path.
Make room for good energy.*

About

Saint Germain was born in France in the 18th-century, and is said to have been given a new identity because he was the love child of two very powerful people. He was well educated and able to rub shoulders with royalty. He was also deeply interested in magic,

alchemy and the cosmos and able to perform real-life miracles and turn lead into gold. Now he helps us move beyond social limitations to connect with the right people for the highest good. He's still a master alchemist and able to help us turn whatever is leaden in our life into something that is golden. His twin flame is Lady Portia, and he is the keeper of the violet flame, the powerful etheric retreat where we can release karma.

Extended Message

Karma is the spiritual law of cause and effect. We experience many levels of karma. Some we inherit from our family and some from the people we keep helping out of the problems they keep creating. Saint Germain is here now to clear your energy so that you no longer have the weight of the world, or your loved ones' world, on your shoulders. Be aware that an old pattern is leaving your life and creating space for something more loving to enter. Visualize yourself surrounded by a fiery violet cloak to release all the karma you no longer need.
